

Summer Math Program for Entering Fourth Graders

Because we desire to have our children retain what they have learned during the school year, we are requiring our students in all grades to complete some summer assignments. These will consist of a math packet to be finished, multiplication tables 3-12 to be drilled, measurement facts memorized, and website activities to be completed. This assignment will be due on Friday, August. There will be a math grade taken and those who complete it will be able to play math games on the assigned day while others work on the summer assignments. There will be points taken off for each undone worksheet or activity.

Directions: Place a check mark beside each completed task. Do not place a check mark on a worksheet until it is checked and corrected.

I. Worksheets

- A. ___ Test 20
- B. ___ Test 21
- C. ___ Test 22
- D. ___ Test 23
- E. ___ Test 24
- F. ___ Test 27
- G. ___ Test 28
- H. ___ Test 29

II. Multiplication Facts

- A. ___ Speed drill page p.109 (lessons 142 and 143) timed for 3 minutes
- B. ___ Speed drill page p.125 (lessons 162 and 165) timed for 3 minutes
- C. ___ Speed drill page 129 (lessons 166, 168, and 170)
