neuroBridge Developmental Screenings

neuroBridge will be completing free developmental screenings at Hickory Valley Christian School on September 10, 2020 for all kindergarten and 1st graders. If your child is in a different grade and you or your child's teacher would like your child to be screened, please complete this form. We know that the past 6 months have been difficult and kids may need additional help to navigate through all the changes. The purpose of this screening is to see if your child's motor skills are developing as expected. During the screening, a licensed Occupational Therapist will determine if your child needs further testing based on the results of the screening tool and a series of sensory motor observations.

Please complete the information below, sign, and return the form to your child's teacher by September 9th. *If you have any questions, please contact us at info@neurobridgellc.com OR*

Child's name: _____ DOB: _____

Name of School: _____ Teacher: _____

I give my permission for my child to participate in the neuroBridge Screening by the staff of neuroBridge.
